Ulster's Position in Irish
Peace Negotiations at

By ED L. KEENE,

London, England, June 30.—Ireland's future is expected to be determined in a series of secret meetings which may show the way out of the present bloody "impasse."
For the time being the British Government is out of the argument, while the two Irish factions confer over the question as to whether one man shall speak for all Ireland, or whether the Sinn Féin will concede Ulster's right to its own spokesman if peace conferences with the government are to be undertaken.

ALTOONA POLICE NEAR SOLUTION IN SUNDAY KILLING

Arrest Italian Known
As "Big Joe" in
Connection With Slaying.

Altoona, Pa., June 30.—With the arrest of Joe Postorino, better known as "Big Joe," yesterday forenoon by Constable W. A. Davis of the Second ward at the funeral of Carmelo Cuffaretti, the Italian murdered Sunday night in this city, an important step has been taken in clearing up the mystery surrounding the murder, the authorities believe.

Developments are expected later in the day that may give the authorities reason to fix the blame for the murder upon one or more persons now in jail at Hollidaysburg.

"Big Joe" is an Italian who resides on a small farm about two miles west of Junction, in the Claysburg district. He is the man who furnished the calf and two lambs for the wedding feast which preceded the brutal murder of Cuffaretti at the Italian boarding house at 901 Ninth avenue some time Sunday night.

It was likewise "Big Joe," the authorities have learned, who had a quarrel with the murdered man late Saturday, the quarrel being over some money matters.

BRITISH AND JAPS LEAVE QUESTION OF DISARMING TO U. S.

Rumor Current in Diplo-
matic Circles at Wash-
ington.

FRIENDS OF MOVE ARE WELL PLEASED

Believe Harding's Let-
ter to Mondell Favor-
able.

By A. L. BRADFORD,
(United Press Correspondent.)
Washington, D. C., June 30.—Great Britain and Japan will leave to the United States the first step toward disarmament, according to authoritative statements current in high diplomatic circles today. This attitude of the first and third naval powers of the world is understood to have been made plain to this government in response to President Harding's diplomatic feelers recently put forth.

Friends of Move Pleased.
Friends of disarmament are cheered by the result of two important developments of the last 24 hours on the disarmament question. These are the adoption by the House of the Borah disarmament amendment and President Harding's letter to Republican House Leader Mondell showing that the executive is favorably inclined to disarmament.

HOUSE PASSES BORAH AMENDMENT TO NAVAL BILL

Only Four Representa-
tives Vote Against the
Measure.

Washington, D. C., June 30.—By a vote of 330 to 4 the House late yesterday agreed upon the Borah Disarmament to the Naval Appropriation Bill. Representatives Moore, of Indiana; Campbell of Pennsylvania; Carew of New York, and O'Brien of New Jersey, voted against the amendment.

It is "wholly desirable" to have the expression of a favorable opinion on the part of Congress relating to world disarmament "and it would seem to me ample if it should be expressed in the broadest and most general terms." President Harding wrote to Representative Mondell, of Wyoming, the Republican leader in the House.

Mondell read the President's letter in the House during consideration of the disarmament amendment.

GOVT. OFFICIALS HEAR PLAN OF BUDGET DIRECTOR

Washington, D. C., June 30.—President Harding and members of his cabinet, together with over 600 executive department heads and chief clerks of governmental departments met yesterday with Director of the Budget Dawes to lay plans for the adoption of the new government budget system.

Unlucky Signs.
The idea that it is unlucky to walk under a ladder has its origin in the remembrance of the ladder used at Calvary, while the dislike to the number "13" can be traced to the number present at the Last Supper.

Rumors Of Contempt Proceedings Against Stillman Are Current

Poughkeepsie, N. Y., June 30.—Rumors of contempt proceedings against Jas. A. Stillman were heard today, the second day of the secret hearings of his divorce suit. Stillman's re-iterated reply to nearly all questions asked the witness of "I refuse to answer on the grounds it might incriminate me" would be the basis used if Mrs. Stillman's counsel decided to ask that Stillman be cited for contempt.

JACK DEMPSEY THRU TRAINING AND GLAD OF IT

Will Leave Atlantic
City Today—Destina-
tion a Secret.

Atlantic City, N. J., June 30.—Jack Dempsey is through training and glad of it. The world's champion will do his last work today when he punched the bag for two rounds and takes a long walk on road. Dempsey and his household move Friday to Jersey City. His means of transportation and destination at the scene of the battle are being kept a secret by Manager Kearns.

It is understood, however, that he will spend the eve of the championship contest at a private home near the stadium, and will see no one.

JOHNNY BULL AT LAST CATCHES FIGHT FEVER

English Fans Believe
Carpentier Has a
Chance to Win.

JOHNNY BULL.
London, Eng., June 30.—"John Bull" today believed Georges Carpentier has an even chance of beating the heavy-weight crown from Jack Dempsey's head. Interest in the fight, which slumped in the last two weeks has crept over England like a slow fever. Displaying only a slight interest in the coming battle a week ago, the British Isle now seethes with speculation.

"GEORGES" WINDS UP TRAINING -- IS IN FINE SHAPE

—Followers Are Enthu-
siastic.

Manahasset, N. Y., June 30.—"I am waiting for the bell" said Georges Carpentier today. The challenger had completed training. He is in perfect condition and apparently untroubled by the imminence of the coming championship battle.

Having tipped the scales this morning at 172½, and laid away the gloves until Saturday, Georges declared he would do nothing but rest from now on. His doctor is enthusiastic over his condition. Gus Wilson, whose job it is to massage and rub down the Frenchman, said he never had been so clean cut and ready to fight.

Francois Descomps, his manager, goes about the barn rubbing his hands and smiling. "After the little flurry of nerves which attacked the challenger last Tuesday everyone is on edge. We are confident," he said.

SAILOR RENSHAW TO MEET WOLGAST HERE JULY FOURTH

Young Jack Dempsey, the DuBois battler scheduled to meet Johnny Wolgast in Clearfield, July 4th, will be unable to appear on account of his having recently undergone an operation for removal of a mastoid abscess.

Sailor Renshaw, of Jamestown, N. Y., who was given the newspaper decision over Dempsey last Thursday, has been so good to meet Wolgast and the boxing fans are thus assured a real show.

Cutting Fray At Boardman May Result In Death Of John Molnar

THIRD ST. "MAN TRAP" SNARES A SECOND VICTIM

Woodland Lad Bumps
Along—Ties With
"Flivver".

That "man trap" at the corner of Market and Third streets maintained by the Pennsylvania Railroad company's continued neglect to complete the paving between the rails of their track from Market to Walnut street registered another victim last night—the second in a week.

Earl Graham, a Woodland lad, drove into town in a Ford car. Being unfamiliar with the dangerous condition of the Pennsylvania tracks at the Market street corner in attempting to get from Third into Market street he ran off the brick and between the rails.

Luck With Him.
Fortunately no train was in sight. The police and a crowd of spectators quickly gathered. After much parley and palaver the machine bumped along over the ballast and ties to the alley between Market and Locust, where its driver again succeeded in getting it off the railroad and onto the brick street.

This is the second machine to run into this trap during the past week and its pretty near time something was done toward remedying the dangerous condition.

If history is correct it was one of the Vanderbilt railroad magnates who said "the people be damned," when public rights and railroad necessities ran together, but the Pennsylvania people are not expressing their feelings for publication but they are in effect letting the people go to h—l on this Third street proposition.

Council should at least insist on a watchman at the corner if they don't propose to compel the Pennsylvania Railroad company to do its plain duty and repair this condition which is a grave menace to the traveling public generally. No other community in Pennsylvania would put up with what the Pennsy is rubbing in on us.

There's a Difference.

VETERAN OF CIVIL WAR DIES SUDDENLY WAS ON WAY HOME FROM JERSEY SHORE

Death of David C. Burkett a
Shock to Host of Friends in
This Community—Died Few
Minutes After Getting Out of
Car.

This community received a sad shock last evening when it was noised about town that David Burkett, one of our best known citizens, had died suddenly at Snow Shoe while en route home in his car from Jersey Shore, where he had been visiting for some time with his daughter, Mrs. J. L. Mapes.

Mrs. Mapes was accompanying her father to Clearfield. He complained of feeling unwell and a stop was made at Snow Shoe and a few minutes after getting out of his car Mr. Burkett was dead.

The family here was notified and undertaker R. Wm. Thompson drove down to Snow Shoe and brought the body home for burial.

Hungarian Attempts to Settle Argument Be- tween Metro and Mary Mladin—Woman Plunges Knife Into Peacemaker's Side—Be- lieved to Be Fatally Hurt—Couple Held.

The little mining town of Boardman, in Knox township, was the scene of a cutting affray yesterday afternoon which will undoubtedly result in another murder trial for Clearfield county, the first to occur since the fatal shooting at Clearfield creek bridge some six or more months ago.

BOY FALLS FROM BICYCLE—IS BADLY CUT AND BRUISED

Merle, the 10 year old son of Mr. and Mrs. William Davis, of Reeds ville, fell from his bicycle while down South Second street last evening and sustained several cuts and bruises about the head and face. One cut at the corner of his eye laid the flesh open to the skull and required the services of a physician to repair. The lad was carrying a basket on his arm and getting too close to the railing along the river wall the basket caught and the boy was pulled from his machine and thrown heavily to the brick street.

MAN HUNT ON FOR LAST MEMBER OF PITTSBURG GANG

Pittsburg, Pa., June 30.—The greatest man hunt in the history of the city has been instituted by the police department here. The object of the search is the capture of Benjamin Stokes, the last member of the Boggs & Buhl department store bandit gang remaining at large.

Circulars giving an accurate description of Stokes have been sent broadcast over the country in an effort to apprehend the "brains" of the bandit gang.

The detectives are not the only ones who are anxious to capture Stokes. Gilbert Kelly, the 18-year-old confessed store bandit and alleged murderer of James H. Neal, assistant superintendent of the store, is praying for his capture.

Believing that through the arrest of Stokes he will be able to escape the electric chair, Kelly sat in the office of Captain of Detectives Clyde S. Edburn and begged him to make every effort in the man hunt.

The principals in this affray are Metro Mladin and Mary Mladin, his wife, Roumanians, each 26 years of age, and John Molnar, a Hungarian. It is alleged that Mladin has been making and selling "white mule" or "ther moonshine." Last evening he is said to have had a falling out with one of his customers and the two men came to blows. While the battle was raging Molnar came along and endeavored to make peace. While he was attempting to separate the fighters, Mrs. Mladin ran out of the house armed with a large, keen-edged butcher knife and plunged it into Molnar's back. The knife penetrated the man's liver, making a frightful wound.

Molnar, perhaps fatally wounded, fell to the ground and eye witnesses to the affair seized Mr. and Mrs. Mladin and took them into custody.

Information was made against the Mladins before Squire J. C. F. Snyder who, after a brief hearing, sent them both to jail to await the outcome of Molnar's injury. They were brought to jail this morning by Constable Bloom of Knox township.

WEST SIDER AND NEW AUTO BATTLE FOR HALF HOUR

Contraption Baffles New Own-
er But Key Solves the Mys-
tery and Argument Ends.

A West Side citizen bought himself a new automobile the other day. The demonstration took him out a few times and when he decided the owner ought to be able to go it alone, he ran the machine into the fellow's garage and left it. Last night the new motorist got one of his neighbors in for a drive and labored more than half an hour trying to get the plagued machine out of the garage. He pulled every lever, turned every pedal on the machine without being able to budge an inch, and at the end of thirty minutes, when about to quit in disgust, he pulled the key out of his pocket, unlocked the machine, and she moved right along.

"SEASONAL" COAL RATE BILL SENT BACK TO COMM.

Washington, D. C., June 30.—The "seasonal" coal rate bill, introduced by Senator Frelinghuysen, was sent back to the Interstate Commerce Committee today after being presented in the Senate. The vote against consideration of the bill was 38 to 26.

With this action facing him Sen. Frelinghuysen did not press his other bill authorizing the collection of coal statistics by governmental officials. Senator Borah, of Idaho, made the motion to recommit the bill, saying he could not vote for it in its present shape.

BIG ULCER ALL HEALED

"Here is another letter that makes me happy," says Peterson, of Buffalo. "One that I would rather have than a thousand dollars."

"Money isn't everything in this world. There is many a big-hearted rich man who would give all he has on earth to be able to produce a remedy with such mighty healing power as Peterson's Ointment, to sell at all drugists for 60 cents a large box."

Dear Sirs:
I be without Peterson's again. I had running sores and ulcers. I had tried most everything without any relief from pain. A friend told me of your wonderful ointment and the first box took away the pain that had using just nine dollars' worth of the same I am cured. The ulcer was 9 inches by 6 1-2 inches, is all healed and I can walk. Never, never will I be without Peterson's again.

AGRICULTURAL EXTENSION FUNDS SUFFER FIRST CUT

For the first time in the history of agricultural extension in Pennsylvania the State Government failed this year to appropriate a sum of money that would equal the amount that the Federal Government was willing to give to this work. As a result, the county agents and extension workers of the State College agricultural school will have to operate

for the next two years on almost \$150,000 less than they could have had if the State had provided \$524,214 instead of \$450,000 allowed for this work by the Governor. So far as is known at State College, this is also the first time any state in the Union has failed to appropriate an equal amount of money for extension as that which the Federal Government provides. When this happens, the Federal Government is allowed to give the state only as much as the state itself is willing to appropriate.

RIDDING A FIELD OF COCKLEBURRS

A number of years ago I owned a field that had become badly overrun with cockleburrs. I found it almost impossible to eradicate the burrs by ordinary methods of cultivation. The roots of this plant are so strong that they are not easily cut or torn by the shovel of the cultivator. As a result, a great many of the cocklebur plants were well established at the time the corn was laid by. It occurred to me to try the experiment of cutting these off with a sharp hoe in the hopes that I might restrict the production of seed until the season would be too far advanced for seed to mature. The experiment worked very successfully. Several times during the summer I went through the field cutting down every burr plant I could find. I was particularly careful to let none mature their seed. The following season showed only a small number of plants, and these were overcome by pulling them out root and all. In this way, at not a great expense of labor, I eradicated the burrs entirely from my field.—E. V. L., in Farm Life.

MEAT CAUSE OF KIDNEY TROUBLE

Take a Glass of Salts If Your Back Hurts or Bladder Bothers—Meat Forms Uric Acid

If you must have meat every day eat it, but flush your kidneys with salts occasionally says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids to cleanse the kidneys and flush off the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.

FOOD PRICES BEGIN TO FALL IN GERMANY

Berlin, (By Mail to U. P.)—A slight sinking of prices for the most important foods is noted in the German markets. Statistics show that with the exception of bread, the necessities have dropped about 15 per cent. since the first of the year. Bread and coal, however, cost slightly more than Jan. 1.

Butter was released in June from government control, with the result that considerable can now be purchased in the stores openly and at lower prices than previously. The price dropped within a few days from 35 marks to 22 marks a pound. Restrictions on rationing of milk have also been decreased, though a certain governmental control is still maintained so that the poor may not be victims of profiteering and so that they may be assured a proper quantity of milk for their children.

YOU are a Franklin owner. You know from personal experience what the Franklin will do.

But if you have been a Franklin owner for some time, probably the memory of your previous experiences with other cars has almost faded away. You take the Franklin's performance for granted—perhaps too much so. The spur of contrast is missing.

Revive it: it will make you appreciate the Franklin even more—it will add to your enjoyment.

Recall the former bother of filling a radiator and of guarding against overheating, and in cool weather of draining and of using anti-freeze mixtures.

Compare it with the trouble-free service Franklin air cooling now gives you.

Recall your former limitations of touring range, and the roads you were obliged to avoid. Compare those days with the present, when the light, resilient, easy-handling Franklin takes you as you like, ever even the roughest going, in real comfort.

Lastly, hark back to the bills you used to pay—tires, repairs, gasoline. Match them against the results you get today, and you will realize all over again what advantages you have over other motorists.

ODDS AND ENDS AND THINGS

"By Skinsay"

Virginia Hicks, a 20 year old Baltimore girl, is a patient in the Maryland General Hospital, being nursed back to life after an attempt at suicide Sunday night last. Virginia swallowed poison after observing that "there was no place in the world for the homely girl." We shudder to think what would happen if that idea struck in hereabouts.

When a fellow gets down on his feet he sure is due for all the bad breaks of the game. A New Jersey farmer fastened a shot gun to the trigger with a trigger with a string and blew the top off his head because he feared his crops were going to be ruined for lack of rain. Three hours after the shot was fired a rain began which saved the crops. Such is life.

Some of our country school teachers who have been kicking because of "The International Jew" this morning and began glancing through its pages. This second volume of Henry's is entitled "Jewish Activities in the United States." Among other things Henry says appears the statement that 73 per

cent of the "war millionaires" are Jews. Then after intimating that the Jews have all the money, Henry follows it up by saying a Jew is now President of the League of Nations; a Zionist is President of the Council of the League of Nations and a Jew is now President of France. Then to cap it all Henry says "the more the Jews are opposed the more they show their power." If the flivver maker believes all that why don't he keep quiet about it, and give the rest of us some chance for our "white ally."

We agree with the eminent doctor and scientist who says "its the crawl that kills and not the rush." He said the men who works the hardest live the longest and we believe him, and we ought to know.

Dr. A. H. Warner, of New York, in addressing the Allied Medical Associations at Atlantic City says "if you want to live to be 150 years old all you have to do is just determine to live that long—and you will."

Because the Bible says that a life shall be three score years and ten, the people expect to die when they reach that age," he asserted. "It's all wrong. They have just hypnotized themselves into the belief because it's in the Bible."

"Given a sound constitution and a clean record, there is no reason why a man or woman should not reach 150 years."

We absent-mindedly picked up a copy of Hon. Ford's second volume of "The International Jew" this morning and began glancing through its pages. This second volume of Henry's is entitled "Jewish Activities in the United States." Among other things Henry says appears the statement that 73 per

cent of the "war millionaires" are Jews. Then after intimating that the Jews have all the money, Henry follows it up by saying a Jew is now President of the League of Nations; a Zionist is President of the Council of the League of Nations and a Jew is now President of France. Then to cap it all Henry says "the more the Jews are opposed the more they show their power." If the flivver maker believes all that why don't he keep quiet about it, and give the rest of us some chance for our "white ally."

Johnston Horn, of the Third Ward takes issue with the Curwensville correspondent to The Progress, regarding the date of the first log drive to come out of Anderson Creek. Mr. Horn, who was one of the young woodsmen who came into this country with the Blanchards, Merriells and Walkers, happened to be on that drive. He says this first drive came out of Curwensville on the day President Abraham Lincoln died. Lincoln was shot in Ford's Theatre at Washington by Booth on the night of April 14, 1865, and died the day following. Mr. Horn said the drive hung up at Curwensville the night after Lincoln's death, that he remembered the date and happening very clearly because of the fact that he heard some hard-shelled "copperheads" in Curwensville that night singing a bit of doggerel poetry expressive of their pleasure at the death of "Old Abe," the "nigger lover." Mr. Horn therefore fixes the date,

of the first log drive to reach the river from Anderson Creek as April 15, 1865.

NEW TRAFFIC REGULATIONS.

Mayor Chase and the police committee of council have at last announced the new automobile parking regulations, and in accordance with their ideas of safety have put up a young sized army of "no parking here" signs. Signs are all right in their place, but casual observation leads one to the immediate conclusion that some drivers are going to have to be specially invited to read the signs if the regulations are to be a success.

Several accidents and near accidents have occurred in Clearfield through the non-observance of parking regulations in effect in the past. The new regulations will be of no more value than the old ones unless they are enforced with out fear or favor. The driver of the big glass enclosed limousine is entitled to no more special exemption than the man or woman who pilots the meek and lowly "flivver".

The regulations bear all the earmarks of having been carefully worked out. It is now up to the auto drivers who traverse Clearfield's streets to heed them. If they cannot read English they had better learn for the signs are printed in plain, upstanding figures and are specific in their instructions. There is absolutely no excuse for disobeying them.

To the woman who goes into a store on a shopping tour it might be well to add a word of caution that bargains sometime take longer to select than at first believed and instead of running into the curb and shutting off the engine inside the forbidden zone, with the intention of making a flying trip into an establishment, the fair driver pull up in a zone where parking is allowed.

And finally, should auto drivers fail to observe the regulations, it is up to the police to make use of their powers and bring the guilty ones to court.

An editorial appearing in the Altoona Mirror is also worthy of mention, as it is full of truth even in this neighborhood. They say:

"Some of the automobile drivers who carry searchlights on their cars seem to take particular delight in throwing the strong rays into the faces of approaching autoists at night.

"This is a dangerous practice and might easily lead to a wreck or to running down a pedestrian who may be plodding along at the side of the road.

"The searchlight blinds the other driver for the moment and exposes both cars to the danger of collision.

"Moreover, the traffic laws prohibit any such performance and impose a stiff penalty on offenders".

**ENTRY BLANKS FOR
LEGION MEET MUST
BE IN FRIDAY EVE**

All those who expect to participate in the athletic events at the park on July 4th must have their entries in the hands of Dr. W. S. Piper by Friday evening. Those desiring entry blanks can get them from Dent Holden at the Clearfield Hardware Company's store on Market street.

Thus far there have been no entries in the Ladies' mail driving contest and our "lady carpenters" are losing an opportunity. The first prize in this contest is a \$10 electric iron, the second prize is a \$7.20 silk umbrella while the third prize is valued at \$5.00.

Get your entries into the hands of Dr. W. S. Piper by Friday evening if you desire to participate in the athletic events on the Fourth.

**GOTHAM TEEMS
WITH EXCITEMENT
OVER BIG FIGHT**

By HENRY FARRELL,
(United Press Correspondent.)
New York, N. Y., June 30.—Gotham and its neighboring Jersey cities today teemed with excitement over the Dempsey-Carpentier fight. With work over in the training camps, the scene of activities shifted to the battle ground.

New York could gobble up a million out-of-towners without causing a ripple on the surface, but the hotels of these cities today reported a growing wave of incoming fight visitors. Hotels in the "roaring Forties" were crowded and the outlying districts here were getting plenty of overflow.

On the streets, in hotel lobbies, and even in the ever-crowded subway, nothing but fight talk was heard. An increase in betting was reported from financial circles where the champion is still a 3 to 1 favorite.

**Poor priming
ruins a rifle**

Two targets, both by the same rifleman. One with a clean, smooth barrel, the other with a barrel which had been "pitted" by the priming in the cartridges.

The priming in most cartridges leaves a rust-attracting residue. This rust digs tiny holes all along the bore and gives the bullet a bumpy path from breech to muzzle.

The slightest inaccuracy in the rifle is multiplied many times on the target.

The priming in U S Rim-Fire Cartridges (including the famous .22 N. R. A. Long Rifle) does not attract rust. It does away with excessive "pitting." It helps your rifle to remain accurate.

For the sake of your rifle, use U S Rim-Fires. Money back if not satisfied.

NEWS OF OUR NEIGHBORS

WOODLAND

Rev. J. F. Strayer and family who have been away on a vacation for three weeks, returned home Monday and are ready for work again.

Rev. F. J. Strayer, father of Rev. J. F. Strayer, of Woodland, is visiting in Woodland. He has been in Florida for several years on account of health.

The Bradford Township School Board has advertised a bond issue for \$35,000 for the erection of school buildings at Woodland and Bigler. This is a splendid move on the part of a progressive people. The American public school is the bulwark of our liberties. We hope the voters will give a unanimous vote in its favor.

Woodland gardeners are rejoicing in the splendid rain.

The Fourth Quarterly Conference of the United Brethren Church will be held in the church on Friday, July 1st. Dr. Fulton, Conference Superintendent, will be present and conduct the business.

Elcos on that occasion. It rained at Ridgway yesterday, but the downpour consisted of singles and doubles plentifully distributed from the bats of the Elk county sluggers.

Such a Sickness.

Gilbert, Manager Hoffman's newest pitching find, was selected for the

laughter, and, my gracious, such a "kness in that first inning.

Listen to this on a tin roof. Spier, best man up, singled. Moran duplicated the hit. Getz sacrificed and Spier scored. Messenger walked. Rob-

by's booted J. Ritter's grounder. Nixon singled, W. Watson hit for three bases and Philan singled, netting six large juicy runs.

At this stage of the game Manager Hoffman decided Gilbert wasn't going very good and "hooked" him out, sending Welch, another new man, on to the firing line. M. Watson greeted the left hander with a screaming double and Spier followed with a second two-bagger. Moran came across with his second single of the inning, and was out at second on Getz's attempted sacrifice. Messenger singled and J. Ritter ended the agony by flying out to Hoffman. Fourteen men batted and nine of them scored in the inning.

Welch gave a good account of himself for the remainder of the game and Elco scored but three more runs. Two in the third on a walk, a double and a single, and the final run in the fourth on a double, walk and sacrifice fly.

Clearfield Scores in Third.
Clearfield scored two runs in the third on two singles, a walk and a sacrifice fly. They got two more in the seventh on doubles by Hoffman and Kane, while Costello hit a homer in the eighth for our last run.

Turtles on the Amazon.

Seventy years ago Bates predicted the rapid extinction of the turtles on the Amazon, but William Ray Allen, who returned recently from an expedition to the upper reaches of that river, reports to Science that in spite of an enormous consumption of turtles and eggs that has continued from that day to this, they are still very abundant. Petroleum has replaced turtle oil since that time, but turtle eggs, meat and viscera continue to be favorite articles of food.

CHILDREN'S DAY AT WEST SIDE

West Side M. E. church fittingly observed Children's Day on Sunday. At the morning preaching service Rev. Snively baptized fifteen children, conducting a very impressive ceremony with the parents attending.

The Children's Day program was delightfully rendered at the evening service before an audience of over 800 people. The juniors and primary children gave valuable contributions in song and recitation. One of the leading numbers was a solo by Miss Cecelia Ross, "Jerusalem," while a spot light beautifully portrayed the Cross.

and various colored lights were thrown on six little children garbed as angels. Music was furnished by the Sunday School orchestra, one of the pleasing numbers being "Trie by Prof. Schaeffer. Mrs. Schaeffer and Miss Myra Shaw.

A generous offering was taken which is designated to be set apart for the many young men and women who are struggling with poverty in schools and colleges to gain a Christian education. The observation of Children's Day is calling attention more and more to the moral training and culture of childhood.

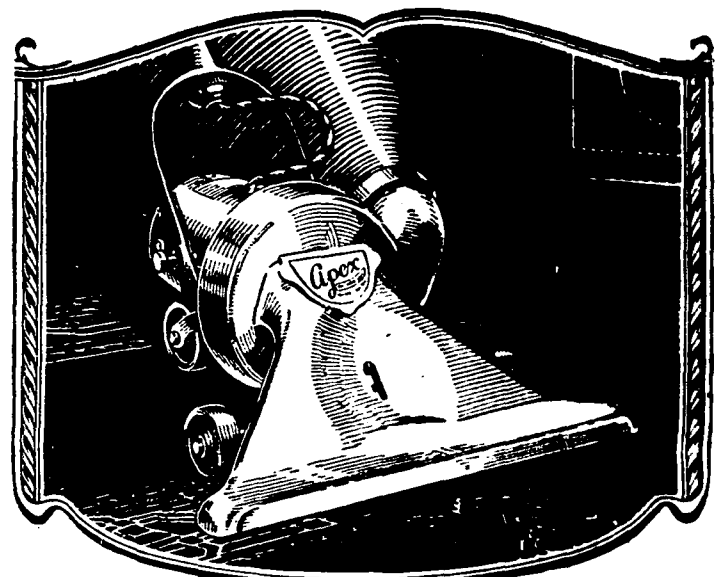

Much credit is due Supt. H. L. Shaw and the committee in charge for the splendid program rendered.

Many Battles for Crown Which Jack Dempsey Is Now Wearing

By HENRY L. FARRELL

(United Press Staff Correspondent.)
New York, June 30. (United Press.)—The Dempsey-Carpentier battle, called "the bout of a century and the greatest of all times," adds a chapter to a list of important heavyweight championships that started back in 1882.

John L. Sullivan was the first to be considered one of the real greats of the ring. He won the title by knocking out Paddy Ryan in nine rounds at Mississippi City, Miss., Feb. 7, 1882. He successfully defended his crown by knocking out Jake Kilrain in a seventy-five round battle at Richburg, Miss., on July 8, 1889. It was the last fight with bare knuckles.

Figured without a chance, James J. Corbett, a bank clerk, gave one of the first proofs of the merits of brains and science against brawn and brute strength when he won the championship from Sullivan Sept. 7, 1892, in a twenty-one round fight in New Orleans. Corbett defended his title against Charlie Mitchell in a three-round fight at Jacksonville, Jan. 25, 1894.

After defeating Peter Maher in one round in Mexico in 1896, Bob Fitzsimmons came along then and won the title from Corbett after fourteen rounds in Carson City, Nevada, March 17, 1897. He held the crown until June 9, 1897. He held the crown until June 9, 1899, when he was knocked out by James J. Jeffries in an eleven round fight at Coney Island, N. Y.

On the same battleground, Jeffries beat Tom Sharkey in twenty-five rounds on Nov. 3, 1899. Fitzsimmons challenged again for the title, but Jeffries knocked him out in an eight-round bout in San Francisco on July 25, 1902. Corbett then challenged Jeffries and was knocked out in ten rounds at San Francisco on Aug. 14, 1903. Jack Munye challenged him but he suffered the same fate after two rounds in San Francisco Aug. 26, 1904. Jeffries retired in 1905, undefeated.

Marvin Hart claimed the title after knocking out Jack Root in a twelve round bout at Reno, July 3, 1905. Jeffries refereed the bout and presented Hart with his title.

Tommy Burns became the cham-

pion when he won a twenty-round decision from Hart in Los Angeles on Feb. 23, 1906. Hart claimed a foul, but it was not granted. On May 7, 1907, Burns defeated Jack O'Brien in a twenty-round bout in Los Angeles and on July 4, 1907, he knocked out Bill Squires in one round at Colma, Cal.

Jack Johnson came into possession of the title when he beat Burns in a twenty-round bout at Sydney, Australia. Police stopped the contest. Burns received \$30,000 while Johnson got \$5,000, along with the crown. The colored fighter whipped Stanley Ketchel in twelve rounds at Colma, Oct. 16, 1909, and knocked out James J. Jeffries in fifteen rounds at Reno July 4, 1910.

After Johnson had defeated Jim Flynn in nine rounds at Las Vegas July 4, 1912, he got into trouble with the government and a tourney of white heavyweights was arranged in Los Angeles in 1913. Luther McCarty beat Al Kauffman, Jim Flynn and Al Palzer and was proclaimed the white heavyweight champion of America. On May 24, 1913, at Calgary, Canada, McCarty was knocked out by Arthur Pelkey. McCarty collapsed in the ring and died from what the coroner's jury termed a hemorrhage of the brain.

Gunboat Smith won the title from Pelkey in fifteen rounds at San Francisco on Jan. 1, 1914.

Jess Willard then came along and being proclaimed the white hope he was matched with Jack Johnson, still world's heavy-weight champion. Willard won the world's championship by knocking out the negro in the twenty-sixth round at Havana, April 5, 1915.

After a sensational string of short knockout victories, Jack Dempsey was matched with Willard by Tex Rickard. They met in Toledo, Ohio on July 4, 1919. Dempsey knocked Willard down seven times in the first round and won the title when Willard failed to answer the bell for the 4th round.

DESTROY GLASS TO KILL BEER SIGNS

Upon Decision of Buffalo Judge Hangs Fate of Many Ex-Cafe Windows.

Buffalo, June 29.—(United Press)—Destruction of thousands of dollars worth of fancy stained glass that adorns Buffalo's erstwhile saloons depends on a decision soon to be made by City Judge Woltz.

Recently a police captain was passing a soft drink establishment that at one time was one of America's many watering troughs and his eagle eye caught sight of a sign which had been worked into the stained window. The sign read: "Wines and Liquors."

The captain arrested the proprietor of the establishment and he pleaded guilty of having art glass bearing such legends. It was argued that such signs are now against the law and Judge Woltz took the case under advisement.

Should the judge rule that the sign is unlawful, it will mean that hundreds of similar fancy drink places that—once were saloons will have to be destroyed.

MINING EXTENSION MEN MEET AT STATE COLLEGE

State College, Pa., June 27.—With representatives attending from the mining classes at Brownsville, Rockwood, South Fork, Portage, Cresson, Beaverdale, Barnesboro, Hasting, Oseola Mills, Winburne, Madera, Robertsdale and Dudley, the first conference of the Mining Extension Division of the Pennsylvania State College held here recently proved to be highly successful in every way. Great enthusiasm greeted the plans for next year as they were outlined by Dean E. S. Moore, of the Penn State Mining School. The recent conference was the first of its kind ever held in Pennsylvania and it is expected to become an annual affair.

The increasing enrollment for the six weeks' summer course in coal mining indicates that it will surpass any previous year and it is expected that a very large number of mining men will take the course which starts on Tuesday, June 28. The work will be in charge of the regular staff of instructors, assisted by some of the extension workers.

HAD NERVOUS BREAKDOWN

Mrs. Ireland Permits us to Publish this Letter for the Benefit of Others Who Are in Her Condition

Warsaw, Missouri.—"For five years I was weak, nervous and in a run-down condition. Then I had a nervous breakdown and doctors said I would never be well again. After I took seven bottles of Lydia E. Pinkham's Vegetable Compound I was healthier, stronger, and felt better than I ever did in my life before. I can't praise the Compound enough and will recommend it to all women. You may publish this letter if you think it will help others."—Mrs. FLOYD IRELAND, R. R. 1, Warsaw, Missouri.

Nervous women are both ailing and stretched, and with a nervous breakdown all joy goes out of a woman's life. It is said that the ill peculiar to women act on the nerves like a firebrand. Lydia E. Pinkham's Vegetable Compound is so successful in overcoming such conditions, a large number of American women who were once great sufferers from nerve troubles owe their present health and comfort to Lydia E. Pinkham's Vegetable Compound.

Write Lydia E. Pinkham Medicine Co., Lynn, Mass., about your health.

It's a PLUMB

The Hammer of
Experts

PLUMB Hammers are the result of a close study of conditions. To get a hammer that would "do the work best" the Plumb people went to the users and found out from them what they required in a hammer. Hence the features that belong exclusively to Plumb Nail Hammers—the larger striking face with the weight centered in a chunk behind it—the claws with the extra curve—and short split giving extra leverage—the nipper-like edges that grip and hold any nail, big or little.

Note the famous Plumb Hand Comfort Handle that never tires or cramps—another exclusive Plumb superiority. This handle is made from heavy selected hickory, chemically treated and beautifully mahoganyized. Note the handsome Hand-Forged, Non-rust Finish that preserves the head from tarnish. Remember the tapered eye anchors the head firmly on the handle.
